**SUMMARY OF THE REASONS FOR DECISION:**

The untitled photographic material, also known as *Item 6 Strip of 3 negatives*, has been classified as:  
Unrestricted.

The publication consists of three frames of unprocessed black and white film negative, joined in a strip. All three frames show a large house or houses, set in a wooded area. Each slightly different view features the curved rooflines of oriental-style buildings, photographed from above. Other, western-style buildings appear in the background. The images form part of a large quantity of photographic material by the photographer David Hamilton.

The strip of negatives does not raise any matters of concern under the Films, Videos, and Publications Classification Act 1993 and is therefore classified as unrestricted.
